

The study of geography is about more than just memorizing places on a map. It's about understanding the complexity of our world, appreciating the diversity of cultures that exists across continents. And in the end, it's about using all that knowledge to help bridge divides and bring people together.

— Barack Obama —

Their futures,
their world

Challenge

Knowledge of
local, national
and global places

Opportunities to become
global citizens

Extend reading
and research
skills

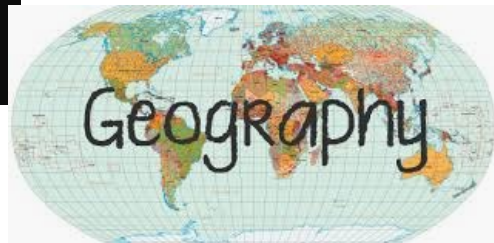

Orienteering

Use maps, visual
images and
technology

Interconnections
between how people
and the environment
interact

Outdoor Learning

Eastwood's Geography Vision Statement

Our Geography curriculum encourages children's curiosity about the world and its people. It aims to equip children with the knowledge and understanding of the world, people, places and environment. They will have an adept understanding of their responsibilities within their own society whilst having a coherent insight into sustainability of a dynamically changing world.

Connections between
people, places and
environments

Fieldwork

Think critically
and spatially

Interest and wonder in
exploring

Geography is a living, breathing subject,
constantly adapting itself to change. It is
dynamic & relevant. For me, *geography*
is a great adventure with a purpose.
