

Eastwood Community School

Learning at Home Menu

Year group: 3

Please find below some suggestions as to learning activities your child could be doing at home during this period of Government enforced school closure. This menu of activities is additional to the theme menus sent home at the beginning of term, which pupils can continue working on as well. **Pupils are expected to read for 15 minutes every day and practice their phonics / spellings and times tables every day as well as choosing activities from the selection below.** Try to ensure you do a balance of different activities each day / week. Work (which can include photographs / evidence of activities or visits etc.) should be recorded in this Learning at Home book to share when school re-opens.

English

- Research inventors and write what you find out about one of them and what they did.
- Research an invention and what you find out about it.
- Order the months of the year and learn to spell these correctly.
- Illustrate each of the seasons and describe the difference between them.
- Write about a special day/event and how you have celebrated this at home.
- Write a description of a mysterious object or thing which you find whilst out for a walk.

Mathematics

- Learn the facts for the 3x, 4x and 8x times tables facts so that you can recall these quickly by heart. Use these facts to write word problems for others.
- Create pictures of different birds/animals/objects using 2D shapes.
- See how many different types of pentagons, hexagons, heptagons and octagons you can draw.
- Learn to tell the time and write these down in both analogue and digital forms.
- Use the corner of a piece of paper to create a right angle detector and then hunt for right angles around your home.
- Write out the alphabet in capital letters. Use different colours to show the perpendicular and parallel lines in each letter.

Homework

Creative / Practical

- Design your own robot. Draw a picture and describe what he/she can do.
- Design a new object and explain how it is used and why it is useful.
- Find out about the different bones in the human body. Draw an image of the human skeleton or make one using straws/matches.
- Learn the names of some of your muscles. Create some exercises which develop the use of different muscles.
