

## **Home Learning Packs Overview**

Our packs will have some work based on Footprints in the Snow but will also cover the theme of Winter and Seasons. The children in school will cover the same work as the children learning remotely at home. Below is an overview of what we will be covering each week.

Please have a look at the suggested timetable for when to teach each subject.

Wellbeing calls will be made weekly to check how you are getting on with the home learning packs or if you have any concern.

### **Week 1:**

Maths - multiplication & division equal groups

English - prediction, character description

Non-core - Footprints in the Snow, weather through the seasons
