Most of the activities on here are free and cheap and some can be done at home	
Make your own playdough spider (use the play dough recipe in your pack) Use different objects to make patterns.	
Pull, push, squeeze, stretch, make a ball for your spiders body then roll out 8 legs #42	
Incy wincy spider activity sheets.	
Look in the pack with your adult and see if you can try some of the activites together: colour, cut, and stick to make a spider or spider's web. You may like to think of your own way to create your own spider. #20

Make a den	
Den building is a great way to encourage your child's all-round development, supporting physical, mental	
and social development. Creating dens will support them to think outside the box, planning and then making their ideas into a reality. They will need to problem solve, addressing challenges they come up	
against and then they can enjoy the fruit of their labours by having some cosy privacy or an exciting	
imaginary adventure. Also creating a great opportunity to make a hiding place for your spiders.

Creative Junk	
Use old egg boxes, tubes, tubs and packaging to create your spider #25	
Dance! <u>https://www.youtube.com/watch?v=_L-ARovQwXg</u>	
Dancing is fun as well as being a great way to encourage your child to be active and healthy. Your baby and toddler will enjoy moving their body to the rhythm and beat of different types of music, and will delight in	
copying your fabulous dance moves and ducklings waddling from side to side
