### Eastwood's History Vision Statement

At Eastwood Community School our vision is that the teaching of history gives pupils an understanding of the past through learning about human achievements and experiences. We will investigate sources such as pictures, stories, writing and artefacts to ask and answer questions about the past and how these impact the world we live in today. We aim to give our children a history curriculum which enables them to become confident, creative and independent learners. We seek to broaden children's real-life experiences both inside and outside of school through educational visits, visitors, experimentation, exploration and discovery.
