

Spring 1
What we will be learning...

Our theme for this term is:
Time Travellers / A walk through time

History

We will be going back through time to learn about the UK history through the decades. We will be identifying and explaining the differences, similarities and changes between different periods of history and how these have impacted on our lives today. In our Art lessons, we will be creating art work that has influenced by historical periods. We will be using a range of e-resources to create art.

Science

Evolution and Inheritance.

In our Science lessons we will be learning about the theory of evolution. We will be recognising that living things produce offspring of the same kind, but normally offspring vary and are not identical to their parents. In our lessons, we will identify how animals and plants are adapted to suit their environment in different ways and that adaptation may lead to evolution.

English 

In our English lessons, we will be reading and exploring the book 'Tragedy at Sea.' This is a great text and allows the children to learn about the Titanic disaster and will allow the children to find about key historical event that happened. As part of our learning, we will be working on debating and writing a balanced argument and we will also be learning about the features of journalistic writing and will produce a newspaper report.

Maths 

Calculations

In Maths we will be learning the formal written method for long division. We will also be learning about the order of operations (BODMAS) and solving a range of multi-steps problems which involve all four operations.

Fractions, Decimals and Percentages

We will be learning how to add, subtract, multiply and divide fractions therefore pupils will need to use multiplication knowledge and know common multiples, common factors and prime numbers. We will be calculating simple percentage of amounts and learning how to solve percentage problems.
