Learning at Home Menu

Year group: 3CH and 3MI Our theme for this half term is: The Romans

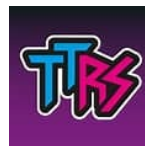

The homework options below are linked to our theme or other learning from this term such as Maths / Science etc. **Pupils are expected to read for 30 minutes every day and practice their phonics / spellings and times tables every day as well in addition to choosing 1 or 2 things from the options below each week.** Choose different activities over the half term, for example maths one week, creative the next etc. Work (which can include photographs / evidence of activities or visits etc..) should be recorded in this Learning at Home book (unless it is a model).

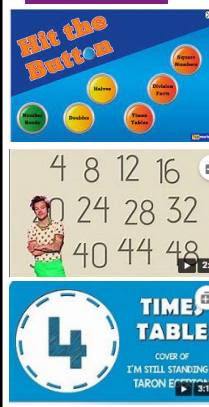

English

- Write a poem about anything that interests you. Remember the pattern for a Haiku is 5 – 7 – 5.
- Write a poetry review. It could be your favourite rhyming book, one you have read recently, or a poem we have learnt in school. What do you like about it or dislike about it? Can you summarise what happens? Who are the main characters, what do they do and why?
- Write a report of your first day in the Roman army. What did you do?

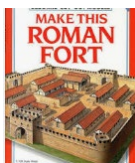

Maths

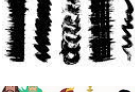

- Log in to TT Rock Stars every week to practise your times tables. – WE NEED TO WIN!!
- Keep practicing your times tables (2, 3, 4, 5, 8, 10). Use “Hit the Button” on Top Marks Maths website if you want to play online.
- Watch times tables songs on Youtube to help you practice.

Creative

- Can you create a 3D model of a Roman fort? Or a Celtic roundhouse? Maybe you could use recycled materials.
- Make a Roman invention out of recycled materials – an aqueduct, a roman baths showing the underfloor heating, a roman road showing the layers.
- Create a painting using different types of brushstroke.
- Research the Roman Gods and Goddesses – Who where they? What do you think they looked like? – Draw them.
- Can you create a game or toy using magnets?

Other

- Know your Phase 2 to Phase 5 phonemes and create words using these.
- Research the Romans and create a fact file about their time in Britain.
- Research and list as many Roman inventions as you can – do we still use any of them?
- How many things can you find in your house that are magnetic? Make a list.
- Keep a log table of your emotions this week. How do you feel? Why do you think this is? Create your own images to show good / bad feelings.
